Course Fee: \$NZ\$1785 (US\$1250)

Full fee NZ\$1785 – NZ\$715 (US\$500) deposit to reserve a place, balance due 2 month prior (28 Sept)

ADV1 Highlights:

The Advanced CranioSacral Therapy 1 workshop offers an extraordinary experience for the serious CranioSacral Therapy practitioner. It provides the opportunity to draw together all the techniques and skills taught in previous workshops, through giving and receiving treatments, supported by a senior UI instructor and two highly experienced staff therapists. While mornings are given over to discussion of the work and the experiences and insights being gained, during the afternoon sessions each student is treated by the other four in the group, with the supervisory team giving guidance when appropriate.

This course is 5 days long and intense, it helps you take a big leap in your practice. You are advised to stay at the venue and not drive home in the evenings. There are only 10 participants and you work in two groups of 5. This means that there is plenty of time for individual support, both of your learning and practical skills and of your own process through the treatments.

Course Content:

- Refine how you use the CST techniques and develop your palpatory capabilities even further
- Enjoy the chance for one-to-one instructor-participant skill evaluation & development
- Actively participate in multiple-hands sessions and improve your ability to work with other practitioners in a unified way
- Deepen your understanding of the work from going through your own process
- Pull together everything learned in previous courses and take your skill and understanding of this in-depth therapy to a new level.

Prerequisite: SER2

Required Advance Reading: *None*

ADV1 Registration Information:

Course Date: November 28 – December 2 2011

Name _____

Address _____

Phone _____
